

April 28, 1983

LB 17

that the same item could be considered custom in one setting and exempt and whatever the other nonexempt category is. If somebody orders it specifically, then that, I guess, makes it custom. But it could be something that is generally available in which case it ~~would be~~ taxed. So I think what everybody ought to do is go after a type of software that is considered taxable and merely order it specially, then it will become custom and you won't tax it. So rather than have that back and forth and playing with definitions, it would be best to do it one way or the other. So what I am suggesting is that since Senator Goodrich probably won't withdraw his amendment, that it not be adopted at this point.

PRESIDENT: (Gavel). The Chair would interrupt the debate to announce that there are guests of Senator Barrett in the north balcony, five students from the 2nd through the 6th Grades from District 18 in Dawson County, accompanied by Vera Clark. We welcome you to your Legislature. Thank you. Is there anyone else that wishes to speak on the measure? Yes. Senator Goodrich is the author of it. Is there anyone else? Senator Beutler.

SENATOR BEUTLER: Mr. Speaker and members of the Legislature, I just wanted to say that I really don't quite understand what the effect of the amendment is, and for that reason I am not going to vote for it. I am not sure I am against Senator Goodrich's amendment. On the other hand, there is Select File for a relatively minor amendment like this and it would seem to me as a matter of caution that maybe everybody had better understand a little better what that amendment does before they vote one way or another. That is the only remark I would make. Thank you.

PRESIDENT: I believe Senator Goodrich wishes to withdraw his amendment at this time. Correct?

SENATOR GOODRICH: In the spirit of cooperation with Senator Chambers, I am going to withdraw the amendment, and I will place it on Select File so that there is no question about the wording of it. Thank you.

PRESIDENT: Without objection, the Goodrich amendment is withdrawn. Now we are back to the bill. Mr. Clerk.

CLERK: I have nothing further on the bill, Mr. President.

PRESIDENT: Nothing further on the bill. Senator Kilgarin.

SENATOR KILGARIN: Mr. President and members of the Legislature,
